Projects

Portfolio Website

Designed and developed a personal portfolio website using **HTML, CSS**, and **JavaScript** to showcase projects and skills. Implemented a responsive and modern UI with smooth navigation and an interactive layout. Utilized CSS animations and transitions to enhance the user experience. Deployed the website on GitHub Pages for easy accessibility.
Technologies Used: HTML, CSS, JavaScript
Live Link: Portfolio Website

SpaceX Website Clone (Ongoing)

Developing a frontend-only clone of the official SpaceX website using **HTML, CSS**, and **JavaScript**. Focused on responsive design to ensure seamless viewing across different devices. Implementing CSS animations, parallax scrolling, and hover effects to replicate the real website's aesthetics.
Technologies Used: HTML, CSS, JavaScript
Live Link: SpaceX Website Clone

Music Player

Developed a fully functional music player using **JavaScript** with essential audio controls. Features include play, pause, next, previous, volume control, and song progress tracking. Designed a clean and modern user interface with interactive buttons. Ensured mobile responsiveness for an optimized experience on all devices.
Technologies Used: HTML, CSS, JavaScript
Live Link: Music Player
